PARTNER VINEYARDS

Uncle's Vineyard

UNCLE'S Wine was founded by South African Andrew Killian, who adopted the nickname 'Uncle' during his first overseas harvest – he was 40 at the time, and the rest of the team in their early 20's. Andrew now lives in Luxembourg, but makes his wines in a variety of locations, in very small quantities - 1 or 2 barriques. UNCLE'S wines are made with minimal intervention, and are mostly natural ferments, using native yeast.

Weingut Johanninger

The Weingut Johanninger vineyards lie in the popular grape growing regions of Rheinhessen and Nahe, in Germany. The vineyard soils range from lime-rich clay marl to terraced gravel, and are perfect for growing a variety of grapes, such as Pinot Noir, Cabernet Sauvignon, Merlot, Riesling, Müller-Thurgau, Chardonnay and Sauvignon Blanc. Weingut Johanninger is eco-certified, and all wines produced are vegan.

Clos Jangli

CLOS JANGLI® was established by Stéphane Singery in 2014, and is located in the Luxembourg Moselle. The vines sit on south-south west slopes, on a mixture of clay-limestone soil and a unique subsoil containing gypsum, which gives the wines a rare character and a good dose of minerality. CLOS JANGLI® has a very natural approach to making wine, using only organic processes and working with biodiversity as a natural defence against disease. Originally from Champagne-Ardennes, Stéphane has bubbles in his DNA, which is clear in the exceptional quality of his Crémant de Luxembourg.

Thierry Perrion Champagne

Thierry and Jessica Perrion are third generation growers of premium Grand Cru-classified grapes, in the village of Verzenay, which are sold to the top Champagne houses. The Perrion family holds back some of their best Pinot Noir and Chardonnay grapes to produce about 8,000 bottles of premium Champagne for themselves and their valued customers - including Origin City.

Champagne De Lozey

Champagne de Lozey was founded in 1881 and is today run by 4th generation Philippe Cheurlin. Located in the famous Côte des Bar, in the south of Champagne, the vines are planted on clay-limestone soil from the Upper Jurassic, which gives the wines their unique personality. Most of De Lozey's cuvées are blended with wines that are 10 to 15 years old, using a solera system. The Champagnes have great purity and finesse, and will often have a low dosage.

Welcome to Origin City

Directly from the vineyards to your glass.

Origin City is a representation of our family's passions, fused together to bring you an authentic dining experience - from the food to the wine.

Our wine list is small but refined, with award-winning wines from a variety of independent, boutique producers, including our own family vineyard, Château De La Côbe. Located in Provence, where warm sun, the salty sea, and a fierce Mistral breeze provides perfect (most of the time) winemaking conditions, for low-intervention, organic wines.

When we're not busy during the winemaking season, we regularly visit small wineries all over the world in search of special wines to bring to you at Origin City. A more extensive wine menu can be found at our family wine bar & shop, 56 West Smithfield, a cosy and relaxed space, just across the square.

PARTNER VINEYARDS

Alves de Sousa

The Alves de Sousa vineyards are in Douro, Portugal, and cover an area of approximately 145 ha, across different 'Quintas', which allows the family to bring a variety of characteristics into their wines, due to the ecological diversity, altitude, and microclimate of each Quinta. For over 30 years, the family has been making wine and port, which has been widely recognised all over the world.

Fattoria di Montemaggio

The Fattoria Montemaggio estate can be found in the heart of Chianti Classico region, in Italy. Extending over 9 hectares, the vineyard is planted mainly with Sangiovese, as well as small portions of Merlot, Pugnitello, and Chardonnay. Montemaggio produces high quality wine by planting vines with a very high density per hectare - 6250 plants per hectare in some vineyards - which produces low yielding vines, with high concentration grapes.

Joseph Cattin & Grand C

Grand C was created by two wine specialists, Axel Wulfken and Jacques Cattin. Jacques Cattin is the head winemaker at his family's estate, Domaine Joseph Cattin, located in Voegtlinshoffen, near Colmar in Alsace, where many of the wines are made. The 70 hectares of vineyards lie on the foothill of the Vosges, where the altitude varies from 200m to 400m. Mostly facing south and south east, they get maximum sunlight, which is vital for the grapes. Soils are mainly dominated by shell limestone, granite, loam and clay.

Tokaj-Harsanyi

Harsanyi vineyards are located on four unique slopes near the Megyer-Hegyi Tengerszem. The jewel box between the two mountains is a real hidden wonderland, where the vineyards are able to show the diversity of Tokaj wines. The Király-hegy, Kútpatka, Megyer and Ciróka vineyards cover 17 hectares, soil and climate are unique due to the volcanic rocks and the proximity of the Bodrog River, which give the wines unique character and refinement. While respecting the traditions, the wines have a modern style dominated by fresh fruity notes and the characteristics of the slopes.
